“ Mts. Borom and family--sending prayers and my condolences for your loss. And as well, our community's loss. There will not be another fighter for the dignity and civil rights of our black community as Larry. I feel privileged to have been able to work with him in the educational reform fight here in Denver. I will miss his clarity, civility, and dignity, as the struggle continues.

Sincerely,

Mary Titus Sam

“ My deepest and heartfelt sympathy to Betty and the family. It was always a pleasure to see Larry and Betty at Community Events and spend time talking and celebrating life with them. Larry was always full of life which was so infectious and caused everyone in his presence to feel it. I will miss Larry so much and I will pray for Betty and lend whatever support I can for her in the difficult days ahead. My husband would share my sentiments if he was still with us, however the two of us wish Larry God's Speed.

Sincerely,

Myrna Mourning

IR

Larry's leadership has been a large part of my becoming what I have been in the community, a guidance and example more like friendship. Since the time before the word "mentor" was used, Larry has been a Mentor for me and many others, showing us all how to get things done, how to get along with everyone, and what Integrity really means. He has definitely left the world more beautiful and beneficial.

“ Well, the guy never could get the recycle pick up days right but he sure was a good friend and wonderful neighbor. We are in shock but know too that when it's time, it's time. Our best wishes to his lovely wife, Betty.
