“ *Beautiful Auntie Phyllis, thank you for the time and lives you've touched. What a blessing you've been, you've made such an incredible impact on so many with your light... My mom's stories of childhood consists of the memories you both shared and the amazing friendship that was created and built... there's a quote "friends are the family that we choose" you've always been family... not by blood but by heart and that has such significance in itself. I thank you for being a solid person in my moms life... her love for you is in every memory she shares and I couldn't be more grateful for being able to hear the stories. What a beautiful legacy you've left behind... Our hearts are broken for the family and we pray for strength in this time... enduring is one of the most difficult things, when love is so deep and a missed loving heart is so cherished. We send love and prayers. - Lauren Stockman*
